Its turnover has increased from Rs. 7277.77 lakhs to Rs.12549.65 lakhs, year on year basis which reflects an growth of 72.44%. With the improved working, it has been able to reduce its losses considerably from 899.84 lacs during the previous year to Rs. 22.59 Lacs during the last year.

MANAGEMENT DISCUSSION AND ANALYSIS

The Global textile industry has witnessed the growth of an astounding 25% during the last year and it is expected that it will continue to spearhead the growth in the coming years. Asian markets also continued to register positive growth in the fiscal 2010-11. Due to the demand from western countries, the exports crossed \$25 m. billion in 2010-11 and the trend was likely to continue for another 5 to 6 years.

The Indian Textile Industry plays very important role in our Country's Economy and it was earliest to come into existence in India. It accounts for 14 per cent of the total industrial production, contributes to nearly 12 per cent of the total exports and is the second largest employment generator after agriculture which provides employment of 35 million people. The Indian textile industry is one of the largest in the world with a massive raw material and textile-manufacturing base and also currently India has the second highest spindle age in the world after China. India has a share of 22 per cent in world cotton production, touching 312 lakh bales in 2010-11.

Introduction of Technical Textile to promote indigenous manufacture of technical textile to leverage global opportunities and cater to the domestic demand will play an important role in textile industry in the Eleventh Five Year Plan which has estimated the market size upto US\$ 10.6 billion in 2011-12. The Indian Government was also in process of setting up research centers to improve the growth of textile industry.

Amit has utilized the opportunity offered by the global recession for introspection to identify areas of improvement. It is a great satisfaction that such initiatives have paid us more and strengthened the company accordingly expecting such events in future also. Amit is expecting bright future for Indian textile industry.

SEGMENT-WISE PERFORMANCE

Amit Spinning Industries Ltd. (ASIL) being a cotton yarn manufacturer has only one business segment. On the basis of geographical categorization of market, ASIL identified two segments i.e. exports and domestic.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has established adequate internal control systems, commensurate with its size and nature of business and such systems are periodically audited, verified and reviewed for their validity, considering the changing business scenario from time to time. The Audit Committee of the Board of Directors reviews the adequacy and effectiveness of internal control systems and suggests improvement for strengthening them from time to time.

MANAGEMENT PERCEPTION ON OPPORTUNITIES, RISKS, CONCERN & OUTLOOK

Erratic demand, uncertain raw materials prices, foreign currency fluctuations vis a vis Indian rupee would certainly affect growth and profitability of the sector in short and long term. Another important issue is availability of quality cotton and the price of power. The availability of good quality power at reasonable prices is critical for sustainability of the industry. However, the cost of power has been continuously increasing, adding to the input cost pressure in the industry. We hope that power situation will improve in the coming year. The differentiated treatment for different sectors of textile industry in government policy needs correction. Raw Material security and demand creation in the domestic sector is a must. The integrated approach is required for the growth of the industry in the country. We are making all efforts to cope up with the challenges through continuous cost reduction, process improvements and improved customer services to address reducing margin and working capital pressures.

Since third quarter of fiscal 2010-11, overseas buyers are said to be turning to India more and more to meet their requirements and statistics support substantial growth in exports of textiles and clothing. Besides, textile industry is collaborating more frequently with international companies. Meanwhile, Indian government is making an effort to boost its textile industry.

The Indian textile sector is growing at an estimated rate of 10% per annum and it is expected to reach \$ 110 billion by the year 2015 with an export of \$ 45 billion. To sustain its growth, Indian textile industry requires an investment of \$ 24 billion by 2015.

HUMAN RESOURCES/INDUSTRIAL RELATIONS

The Company and its management value the talent, commitment and dedication of its employees and acknowledge their contribution. Consequently, the employee turnover is negligible. Everyone in the Company is working as a team and is integral part of a family, sharing their ideas through Town Hall meeting, using intranet across the units and are instrumental in making Spentex, a globally admired company. Management of your Company believes that it is the integration of human resources and business strategy that has culminated in its success. High performance orientation is the pivot of the HR philosophy of the Company and all the HR policies and strategies are centered on the same.

Industrial Relations scenario of the unit is continues to be healthy.

Directors

Mr. Inder Mohan Agrawala retires by rotation and being eligible, offers himself for re-appointment at the ensuing Annual General Meeting. Brief resume of the Director to be reappointed, nature of his expertise in specific functional areas, names of companies in which he hold directorship(s) and membership(s)/ chairmanship(s) of Board Committees, shareholding and relationships between directors, inter-se, as stipulated in Clause 49 of the Listing Agreement with Stock Exchanges is provided in the Report on Corporate Governance.

Auditors

The Auditors of the Company M/s. Sunil Jain & Co., Chartered Accountants retire at the ensuing Annual General Meeting and being eligible offer themselves for re-appointment.

Directors' view on Auditors observations

Directors' response to the various observations of the auditors even though explained wherever necessary through appropriate notes to accounts, is reproduced hereunder in compliance with the relevant legal requirements.

1. Schoeller Litvinov k.s (SLKS), a fellow subsidiary of the Company, had registered losses during the year and earlier financial years due to economic slowdown. This fellow subsidiary had submitted a re-organization plan dated 13-11-2009, seeking deferment of payment to Secured Creditors, and proportionate waiver of unsecured liabilities which has now been approved by the court. The Company believes that the reorganization plan, considering improvement in the global textile market, will turn around this subsidiary, so as to make good its losses in a foreseeable period of time and will also place this subsidiary in a position to repay the liabilities in due course. Accounts and other receivables amounting to Rs. 6,01,84,142 are due from SLKS as at March 31, 2011. Accordingly, provision against these Accounts and other receivables is not considered necessary at this stage.

In view of developments company believes in future with the financial viability of SLKS such amounts would be realized within a reasonable period of time.

2. The Loans and Advances of the Company include a sum of Rs.1,93,46,572, being an amount receivable from Customs Department as drawbacks against the export sale pertaining to the period 1993 to September, 2004 when the unit was 100% Export Oriented Unit (EOU). The company has filed an application with the office of DGFT for the claim and on the basis of legal advice obtained, is sanguine of receiving the claim. In view of recent Government gazette notification restoring duty draw back, tax refunds on cotton yarn exports are expected to be realized in due course.

3. As on March 31, 2011, the accumulated losses of the Company have exceeded its net worth. In the opinion of the management, the Company's operations are affected by global business downturn which has resulted in reduction in demand, increase in input costs and shortage of working capital. The Company has also filed a reference with Board for Industrial and Financial Restructuring (BIFR) under section 23(1) of Sick Industrial Companies (Special Provisions) Act, 1985. However, based on recent performance and trends of the company and overall industry outlook, there is an increase in average selling prices of yarn, stability in production levels and reduction in procurement costs of raw materials. The company has started earning cash profits and the management believes that losses incurred in past would be made good. The financial statements have been prepared on a going concern basis on the strength of management's plan of revival including reorganization of business and restructuring of loan facilities under Corporate Debt Restructuring scheme.

In view of current physical turnover, management believes to improve the company's performance such as introducing various cost measures and reorganization of business and restructuring of loan facilities.

Cost Auditor

The Central Government had directed an audit of the Cost Accounts maintained by the Company in respect of textile business. The Central Government has approved the appointment of Shri Rajesh Goyal, Cost Accountant of M/s. K G Goyal & Associates, Cost Accountants to conduct the audit of the Cost Accounts of the Company for the financial year ending 31st March, 2011 for the product "Textile".

The Company has also sought the permission of the Reserve Bank of India through its authorized dealer to write off these debts.
- The outstanding balance as on March 31, 2011 in respect of certain Sundry debtors, Creditors, Loans & Advances and Bank and other deposits are subject to confirmation from the respective parties and consequential reconciliations/ adjustments arising there from, if any. The management, however, does not expect any material variations.
- Schoeller Litvinov k.s (SLKS), a fellow subsidiary of the Company, had registered losses during the year and earlier financial years due to economic slowdown. This fellow subsidiary had submitted a re-organization plan, dated 13.11.2009, seeking deferment of payment to Secured Creditors, and proportionate waiver of unsecured liabilities which has now been approved by the court. The Company believes that the reorganization plan, considering improvement in the global textile market, will turn around this subsidiary, so as to make good its losses in a foreseeable period of time and will also place this subsidiary in a position to repay the liabilities in due course. - As on March 31, 2011, the accumulated losses of the Company have exceeded its net worth. In the opinion of the management, the Company's operations are affected by global business downturn which has resulted in reduction in demand, increase in input costs and shortage of working capital. The Company has also filed a reference with Board for Industrial and Financial Restructuring (BIFR) under section 23(1) of Sick Industrial Companies (Special Provisions) Act, 1985. However, based on recent performance and trends of the company and overall industry outlook, there is an increase in average selling prices of yarn, stability in production levels and reduction in procurement costs of raw materials. The company has started earning cash profits and the management believes that losses incurred in past would be made good. The financial statements have been prepared on a going concern basis on the strength of management's plan of revival including reorganization of business and restructuring of loan facilities under Corporate Debt Restructuring scheme.
